IT'S HEALTHY TO EAT TOGETHER

When we eat meals together with others, we think more about how much and what we are eating – quite simply, we eat in a more health-conscious way. Sharing a meal also strengthens relationships and a sense of family togetherness. The food is, of course, the focus, but the togetherness and atmosphere are of enormous importance. Telling one another about your day and taking the time to have meaningful conversations helps to make mealtimes incredibly valuable for the family and the family's overall development.

Når vi spiser sammen med andre, tænker vi mere over, hvor meget og hvad vi spiser – vi spiser simpelthen sundere. De fælles måltider styrker også relationerne og nærværet i familien. Maden er naturligvis i fokus, men samværet og stemningen har kolossal betydning. Når vi gør status over, hvad der er sket i løbet af dagen, og giver os tid til de gode samtaler, er det med til at give måltidet en uvurderlig betydning for familien og for familiens udvikling sammen.

The BITZ collection consists of cutlery, dinnerware, bowls, glasses, vases, textiles and much, much more. Different materials contribute structures and colours that create contrasts in the table setting and help make the meal an experience. An experience where time spent around the table is enjoyable, and our tummies have enough time to register a pleasant feeling of fullness. This is one of the keys to a healthier life, as Christian Bitz explains:

“When we eat, we need to tantalise more than just our taste buds. This can make mealtimes a better experience, so you’ll want to spend longer savouring the food. This makes it easier to control portion sizes, because it takes the body 20 minutes from the first bite of food until the brain registers the feeling of fullness – and, during that time, you can easily end up eating too much. You don’t have to be ascetic, as long as you eat a good variety of smaller portions. For many people, something as simple as just eating a little less can have a huge effect on their figure, shape and future.”

BITZ-kollektionen består af bestik, stel, skåle, glas, vaser, tekstiler og meget, meget mere. Forskellige materialer bidrager med strukturer og farver, der skaber et kontrastfyldt bord og medvirker til at gøre måltidet til en oplevelse. En oplevelse hvor tiden omkring bordet nydes, og maven langsomt får lyst til at registrere mæthed. Det er netop én af nøglerne til et sundere liv, forklarer Christian Bitz:

”Når vi spiser, skal mere end blot smagsløgene pirres. På den måde kan måltidet blive en bedre oplevelse, der giver lyst til at bruge længere tid på at nyde maden. Det gør det lettere at få styr på portionerne, fordi det tager kroppen 20 minutter fra første bid mad, til mæthedssignalerne når hjernen – og på den tid kan du let komme til at spise for meget. Du behøver ikke være asketisk, bare du spiser varieret og i mindre mængder. For mange mennesker kan noget så enkelt som at spise lidt mindre have stor betydning for figur, form og fremtid.”

SET A COLOURFUL TABLE

The table setting is absolutely central to the meal. Stimulate the senses with contrasts, to the delight of yourself and those you eat with. The extensive and diverse BITZ range includes plates, bowls, dishes, mills, cups, glasses and much more to excite the eye and stimulate the sense of taste during dinner. Adding some decorations like candles in candlesticks and flowers in vases also appeals to all senses and lifts the experience. And you could sip some after-dinner coffee from colourful mugs. We're continually adding stylish new items to the collection, so there's even more reason to mix and match colours, sizes, textures and materials.

This season we are introducing a new range of fine oil lamps in stoneware and glass. They come in two sizes and four colours. The colours are the ones we already know from the BITZ stoneware collection: black, green, blue and cream, which is why it is so easy and obvious to integrate the new oil lamps into both table settings and the rest of the decor. Find them on the following pages along with our entire collection.

DÆK ET FARVERIGT BORD

Borddækningen er måltidets helt centrale del. Stimulér sanserne med et kontrastfyldt bord til glæde for både dig selv og dem du spiser med. I BITZ' omfattende og mangfoldige sortiment finder du tallerkner, skåle, fade, kværne, kopper, glas og meget mere, der pirrer både øjnene og smagssansen under middagen. Pynt op med lys i stager og blomster i vaser, det appellerer også til alle sanser og løfter oplevelsen. Kaffen kan du tage i farverige krus bagefter. Vi føjer hele tiden fine og friske nyheder til kollektionen, så det er endnu mere oplagt at mikse og matche på tværs af farver, størrelser, strukturer og materialer.

I denne sæson præsenterer vi som noget helt nyt en række fine olielamper i stentøj og glas. De kommer i to størrelser og fire farver. Farverne er dem, vi allerede kender fra BITZ' stentøjskollektion: sort, grøn, blå og creme, og derfor er det så nemt og oplagt at integrere de nye olielamper i både borddækning og den øvrige indretning. Find dem på de følgende sider sammen med hele vores store kollektion.

MY INSPIRATION COMES FROM NATURE

BITZ – AN INNOVATIVE HEALTH REALIST

Christian Bitz holds a master's degree in human nutritional science. His goal is to make the population healthier. Health must be based on solid science, and it should feel great for the individual. Bitz has managed to pull the health wave in a realistic direction, where it is actually possible to start a healthier life – it has to be fun, and the switch to healthier living must be driven by desire.

"Nature is my greatest source of inspiration. Every time I exercise in nature, I get inspired. I love the unpredictability and imperfection of nature, which I try to incorporate into our designs when we combine materials and colours. Plates in different colours give you more options when arranging your food. Broccoli on a black surface looks different than it does on a green one. Team the plates with colourful glasses and cutlery in different materials and enjoy how beautiful your dinnertime can be."

BITZ – EN INNOVATIV SUNDHEDSREALIST

Christian Bitz er uddannet cand.scient. i human ernæring. Hans mål er at gøre befolkningen sundere. Sundhed skal baseres på solid videnskab og føles fantastisk for den enkelte. Bitz har formået at trække sundhedsbølgen i en realistisk retning, hvor det rent faktisk kan lade sig gøre at starte et sundere liv – det skal være sjovt, og forandringen til et sundere liv skal drives af lyst.

"Naturen er min største inspirationskilde. Hver gang jeg dyrker motion i naturen, bliver jeg inspireret. Jeg er vild med naturens uforudsigelighed og uperfekthed, som jeg forsøger at indarbejde i vores designs, når vi kombinerer materialer og farver. Tallerkener i forskellige farver giver dig flere muligheder, når du arrangerer din mad. Broccoli på en sort overflade ser anderledes ud end på en grøn. Sæt tallerkenerne sammen med farverige glas og bestik i forskellige materialer og nyd, hvor smuk din middag kan være."

WOOD

THE COLOUR OF WOOD

There's always a good reason to add extra colour to everyday life and spice things up with new products using beautiful colours and materials. Wood/forest, wood/sand and wood/ocean are the three newest colour combinations – matte on the outside and glossy on the inside.

Der er altid en god grund til at sætte ekstra kulør på hverdagen og pifte op med nye produkter i lækre farver og materialer. Wood/forest, wood/sand og wood/ocean er de tre nyeste farvekombinationer med mat yderside og blank inderside.

THE COLOUR OF THE BEACH

Sand is the bright, warm interim tone that brings to mind the natural colours of the beach on both warm summer evenings and wet autumn days. The sand-coloured shades are calm and subdued, giving your table an exclusive look.

Sand er den lyse, lune mellemtone, der leder tankerne til strandens naturfarver på såvel varme sommeraftener som våde efterårsdage. De sandfarvede nuancer er rolige og afdæmpede og giver bordet et eksklusivt udtryk.

SCENTS OF THE FOREST

Green is one of nature's colours, and creates associations with the tranquillity you find when you go for a long walk in the forest. And the harmonious colour forest is absolutely perfect together with the beautiful brown wood, which is also taken from nature.

Grøn er en af naturens farver og giver associationer til den ro, man finder ved at gå en lang tur i skoven. Og så er den harmoniske farve forest jo helt perfekt sammen med den smukke brune wood, der også er hentet fra naturen.

THE GLAZE AND THE COLOURS

All BITZ stoneware products feature the gorgeous reactive glaze that gives each product its own unique look. The glazes – matte and glossy – react in different ways during the firing process, the shades and patterns vary, and we guarantee that all products are completely unique. The colours of the Kusintha glass range are matched to the glaze colours of the stoneware. Mixing the two materials turns the entire table setting into something special.

Alle BITZ' stentøjsprodukter har den smukke, reaktive glasur, der giver hvert eneste produkt sit helt eget udtryk. Glasuren – mat som blank – reagerer forskelligt i brændingen, nuance og mønster varierer, og vi garanterer, at alle produkter er helt unikke. Farverne i Kusintha-seriens glasprodukter er afstemt til stentøjets glasurfarver. At mikse de to materialer gør hele borddækningen til noget særligt.

GREEN TONES

Green is good for the eyes. Quite literally – vegetables like cabbage, broccoli, peas and spinach contain vital nutrients for the eyes. And naturally green colours are also visually appealing.

Grønt er godt for øjnene. Helt bogstaveligt – grøntsager som kål, broccoli, ærter og spinat indeholder vigtige næringsstoffer for øjnene. Og så er de grønne farver samtidig skønne at se på.

LIKE GOLDEN AMBER

The amber-coloured shades in the glaze and glass span from light golden to deeper brown in a gorgeous interaction that reflects nature, autumn forest and the light of the sun.

De ravfarvede nuancer i glasur og glas spænder fra lys gylden til dybere brun i en smuk vekselvirkning, som afspejler naturen, efterårsskoven og solens lys.

GLOSSY AND COLOURFUL

Classic combinations of matte and glossy glaze. Or double up on the glossy glaze so it's light on the inside and darker on the outside. Choosing can be difficult, but we've made the choice easier for you by mixing them into sets with different colours and glazes.

Klassiske kombinationer af mat og blank glasur. Eller dobbelt op på blank glasur med en lys inderside og en mørkere yderside. Det kan være svært at vælge, men vi har gjort valget nemmere og mikset dem i sæt med forskellige farver og glasurer.

CREATE CHANGE

SUPPORT KUSINTHA

Kusintha is an ongoing support project that was started in 2018 by Christian Bitz and his girlfriend Lisette Rützou. The project focuses on creating change in the poorest parts of the world through initiatives such as securing crops, providing clean drinking water, and ensuring children are able to go to school. Part of the proceeds from every sale in the BITZ Kusintha collection is donated to life-changing projects in Africa.

Good Hope Village helps orphans. The organisation was founded in 1989 and started out with 12 children in Nairobi, Kenya. Since then, Good Hope has grown and expanded to encompass housing, school buildings and a multi-purpose hall in Good Hope Village, which is in a rural area not far from Nairobi. Today, some 140 children and young people live in the village or have moved out to pursue secondary education. Over the course of its history, Good Hope has helped more than 1,000 children move on in life.

The Kusintha donations have allowed Good Hope to buy a school bus, while the project's ongoing goal is to donate money through the sale of Kusintha products.

GREEN, GREEN GLASS

You can hardly find a more delightful combination than green herbs and glassware in the charming, almost vintage green hue.

Du finder næppe en mere vidunderlig kombination end grønne urter og glasvarer i den charmerende, næsten gammeldags grønne nuance.

RIGHT BY THE HAND

What would a meal be without cutlery? Cutlery elevates the dining experience and brings the entire table presentation together. That's why cutlery is so important, both for making the dinner table beautiful and for enjoying the meal itself.

Hvad ville måltidet være uden bestik? Bestikket løfter spiseoplevelsen og får helheden til at fungere. Derfor er bestikket så væsentligt, både når det drejer sig om at give middagsbordet det smukkeste udtryk, og når det handler om at nyde selve måltidet.

PLACEMATS

BEAUTIFUL FROM ALL SIDES

Placemats help unite the table setting and minimise spillage and stains on the table or tablecloth. But in addition to doing their practical job, they also need to look good. These ones do, no matter which side you use.

Dækkeservietter samler borddækningen og minimerer spild og pletter på bord eller dug. Men ud over, at de skal løse en praktisk opgave, må de også gerne se godt ud. Det gør disse her, hvordan du end vender dem.

GREEN IS GOOD

Christian Bitz uses fresh herbs every day in salads, on rye bread sandwiches and as the final touch to hot dishes. These planters are the ideal size for herb pots. You can also fill them with beautiful flowering or green houseplants.

Christian Bitz bruger friske krydderurter hver eneste dag i salater, på rugbrødsmadder og som sidste pift på varme retter. Skjulerne her har den perfekte størrelse til krydderurtepotter. Du kan også fylde dem med skønne, blomstrende eller grønne stueplanter.

CARE INSTRUCTIONS

STONEWARE

GASTRO

The combination of the matte exterior and the glossy, coloured glaze on the inside makes each piece of Gastro stoneware unique, and there are no two with exactly the same appearance. Because of the reactive glaze, all BITZ stoneware has different scratches, marks and patterns in the glaze. The same goes for the glossy, stained glaze on the inside. This is precisely what gives the collection a vibrant and special look when you pair different pieces together with each their own unique looks. The stoneware is dishwasher, microwave and oven-safe up to 220 degrees.

BASIC

This stoneware is made with a beautiful, reactive glaze that gives the products extra glow and makes each piece unique. There will be visible scratches and irregularities – and they are not flaws. The stoneware is dishwasher, microwave and oven-safe up to 220 degrees.

GLASS

KUSINTHA

The Kusintha range is made of traditional glass and coloured recycled glass. The Kusintha glass range is not intended for professional use in canteens or catering, but can handle being washed about 200 times in a household dishwasher on the delicate program. The glass range is not oven or microwave-safe.

BASIC

BITZ glass products are made of European glass, which is characterised by its high quality. When washing in a dishwasher, choose a low-alkaline dish detergent and select a fast program at low temperature. Salt should be added to the dishwasher, and for washing lead-free crystal, it is a good idea to add half a decilitre of wine vinegar at a low temperature. The range's glass is dyed which means that the pieces will not lose colour by being washed in the dishwasher.

CUTLERY

STEEL

The steel cutlery is dishwasher-safe and will eventually achieve a beautiful patina.

BLACK AND BRASS

The cutlery is not dishwasher-safe and it is recommended that you clean it by hand wash only.

PLEJEINSTRUKTIONER

STENTØJ

GASTRO

Kombinationen af den matte yderside og den blanke, farvede glasur på indersiden gør hver enkelt stykke Gastro-stentøj unikt, og der findes ikke to eksemplarer med præcis samme udseende. På grund af den reaktive glasur har alt BITZ-stentøj forskellige ridser, mærker og mønstre i glasuren. Det samme gælder for den blanke, farvede glasur på indersiden. Det er netop det, der giver serien et levende og helt specielt udtryk, når man sætter forskellige dele sammen med hver deres unikke udseende. Stentøjet tåler maskinopvask, mikroovn og ovn op til 220 grader.

BASIC

Dette stentøj er fremstillet med en smuk, reaktiv glasur, som giver produkterne ekstra glød og gør hvert eksemplar unikt. Der vil være synlige ridser og skæremærker – det er ikke en fejl. Stentøjet tåler maskinopvask, mikroovn og ovn op til 220 grader.

GLAS

KUSINTHA

Kusintha-serien er fremstillet af dels konventionelt glas, dels farvet genbrugsglas. Kusintha-glasserien er ikke beregnet til professionel brug i kantiner eller storkøkkener, men kan klare at blive vasket ca. 200 gange i en husholdningsopvaskemaskine på skåneprogram. Glasserien tåler ikke ovn og mikrobølgeovn.

BASIC

BITZ-glasvarerne er fremstillet af europæisk glas, som er karakteriseret ved sin høje kvalitet. Ved vask i opvaskemaskine kan du med fordel vælge et lavalkalisk opvaskemiddel og benytte et kort program ved lav temperatur. Desuden skal der være salt i opvaskemaskinen, og når du vasker miljøkrystal, er det en god idé at tilsætte en halv deciliter vineddike til maskinen ved lav temperatur. Seriens farvede glas er gennemfarvet, hvilket betyder, at delene ikke mister farve ved at blive vasket i opvaskemaskine.

BESTIK

STÅL

Stålbestikket tåler opvaskemaskine og vil med tiden opnå en smuk patina.

SORT OG MESSING

Bestikket tåler ikke opvaskemaskine, og det anbefales udelukkende at vaske det op i hånden.
