KERAMISK HYBRID-BELÆGNING
CERAMIC HYBRID COATING

Hybrid 3ply-serien er fremstillet af rustfrit stål med keramisk hybrid-belægning. Det hævede mønster beskytter belægningen og forlænger pandernes levetid, og det keramiske toplag giver en god non-stick-effekt.

The Hybrid 3-ply series is made of stainless steel with a ceramic hybrid coating. The raised pattern protects the coating and extends the lifespan of the pans, while the ceramic top layer provides an effective non-stick surface.

3-ply-konstruktionen med to lag rustfrit stål og et lag aluminium i midten opvarmes meget hurtigt.

The 3-ply construction, with two layers of stainless steel and a layer of aluminium in the middle, heats up very quickly.
