COLLECTION 2023

In our catalog we proudly present our collection for 2023, which consists of colorful and sustainable products in which food and drinks are stored, taken and served. With these products we let you enjoy your life wherever you are and whenever you want. Easy and carefree. Also this year we have great innovations and surprising new colours and decors within the existing ranges.

When designing new products, we take the wishes of our customers into account as much as possible. The storage specialist Mepal is therefore launching EasyClip on the market. A line of fresh food boxes to make meal prepping even easier with healthy and varied food. New for Mepal is that, in addition to the plastic trays, we will also be introducing glass trays. The lids with the unique one-click system, which can be operated with one hand, fit both variants. Mepal has of course ensured that these functional bowls look stylish and are available in several colours.

Colour, design and trends are words that fit perfectly with the Mepal collection. In 2023 we will introduce a number of timeless classics in a new fresh look. We combine beautiful and vibrant colors with a ton sur ton detail, which perfectly match the trends in fashion and interior. The products in these colors can be found in the on-the-go and storage range.

Also this year, Mepal brings exciting nice prints on its lunch products and dinnerware for children.

We hope you enjoy discovering our complete collection!

ALWAYS A VARIED LUNCH

Creating interesting packed lunches is child's play with our popular Campus range. Our smart beakers, clever lunch boxes and attractive children's dinnerware sets have been favourites for 30 years! Everything is leakproof and virtually indestructible, designed especially for children's hands. The flip-up water bottle has a built-in straw and will be available in the same cheerful colours as the pop-up water bottle. We're introducing a fun insulated bottle with a flip-up spout especially for children, so they can enjoy a refreshing drink of still or sparkling water on the go too.

Your new schoolmate

- Press and drink, easy to use by children
- Easy to dismantle and clean, can go in the dishwasher
- Durable and sturdy
- Leakproof
- BPA-free

Press and drink. That's the idea

The concept behind the pop-up drinking bottle is plain and simple: press and drink. By just pressing the button once, the drinking bottle opens. The handy loop makes it easy to take along wherever you go. There is a large choice of colours and prints.

Too cool for school!

- Cool and cool in the schoolyard
- Flip and drink
- Leakproof
- The insulated bottle consists of doublewalled stainless steel
- The outside of this bottle stays cool and dry

Flip & drink

Even the little ones can use the easy flip-up spout: the spout can easily be flipped up and the bottle is opened. The insulated bottle flip-up and the water bottle flip-up can be filled with carbonated drinks. Mepal recommends removing the straw.
