MEPAL

COLLECTION 2024

Welcome to the latest edition of the Mepal catalogue. We proudly share our innovations and renewed and improved products in which food and drinks can be stored, taken and served. All innovations are made in the Netherlands, BPA-free and 100% recyclable, as you have come to expect from us. That's how Mepal enriches everyday life with smart, well-thought-out solutions that allow you to consciously enjoy life and make everything a little easier and more carefree.

In our pursuit of sustainability and ease of use, we enthusiastically present our latest product line: Silueta. A complete dinnerware, designed with an eye for style and made from high-quality, lightweight and extremely strong material. From pleasant dinners to relaxing moments in the garden or picnics in the park, the modern Silueta brings colour and convenience to every situation.

Another sustainable initiative is the Calypso 2.0. This handy, little counter waste bin comes in new ton-sur-ton colours and even more important; it is made from recycled material.

Mepal offers two new innovative products for on the road. Discover the Vita water bottle, with a capacity of 500 ml, 700 ml and 900 ml, leakproof of course and with a stylish design. The Vita bento lunch bowl with five compartments offers endless variety options on the go. A simple twist easily seals the lunch bowl leaktight so that you can take this lunch box with the tastiest varied dishes anywhere.

Especially for adventurous children, we present the Campus lunch products with cheerful prints of Paw Patrol pups, tigers and horses. Our new round fruit box will be available in the same fun decors and is easy for children to open and close, so they can easily enjoy healthy snacks. A logical continuation of our successful collaboration with Little Dutch is the Little Farm decor. With the farm animals on the Mepal Mio tableware and the Campus lunch products, there is plenty of choice for every animal lover.

We hope you enjoy discovering our complete collection.
