

MEPAL

Collection 2026

Dear reader,

We are proud to present the latest Mepal catalogue: full of innovation, style and sustainable solutions that make everyday life easier.

After celebrating our 75th anniversary, we're looking ahead. This catalogue introduces new products that respond to changing needs. The choice of materials, ease of use and versatility for everyday life are at the heart of our designs. This is what Mepal stands for: sustainable Dutch design.

Our products combine premium quality, Dutch design and social responsibility. They are largely produced locally and assembled by people with fewer opportunities on the regular job market.

For us, good design is not only beautiful and functional, but also sustainable. An independent Life Cycle Analysis, for example, shows that the Ellipse lunch pot becomes more sustainable than single-use alternatives after just 22 uses and on average, it's used more than 400 times. Products you can and want to reuse often are always the most sustainable choice.

This year, we're taking important steps within three product worlds:

On the Go: three new drink solutions and two new lunch pot variants.

For children: four new bottles, including stainless steel options, and a stainless-steel bento lunchbox. Our trusted Campus collection remains durable and easy to use.

Preparing: smart kitchen tools from our Chef It collection, from whisk to multifunctional scissors, with ergonomic design and clever details.

Our team continues to innovate and create products that truly matter. In doing so, we strengthen our heritage and look to the future with confidence. We believe everyone deserves a beautiful Mepal product and with it, the chance to contribute to a better world.

Thank you for your trust and partnership.

Kind regards,
Jan Pieter Schretlen
CEO Mepal

Making a little extra effort does a lot.
Prepping meals in the evening,
packing snacks for your kids,
making coffee for that long drive.
What you put in, you get out.

At Mepal, we do everything we can to succeed.
We do what it takes, without compromising.
We make products that are simple to choose,
simple to use and that you will love again and again.
They easily last for years.
Make the planet happy again.

Products you like to take with you.
And take them out of the cupboard just as easily.
Because they are exactly what you need
Nothing more, nothing less.

We make good even better,
and just exactly right.

Because whatever is on your plate (or table),
we make it...

Simpler.
Mepal

Simple to choose

At Mepal, we have been creating everything you need to prepare, serve, take away and store food and drinks for 75 years.

Simple to use

Our products are packed with smart solutions and crafted with great care from sustainable materials. They're designed to last for years, so you can enjoy them time after time.

Simple to like

From sketch to finished product, our designers create timeless and innovative designs. We are proud of that. And the fact that the majority of the products are simply made in the Netherlands makes us extra proud.

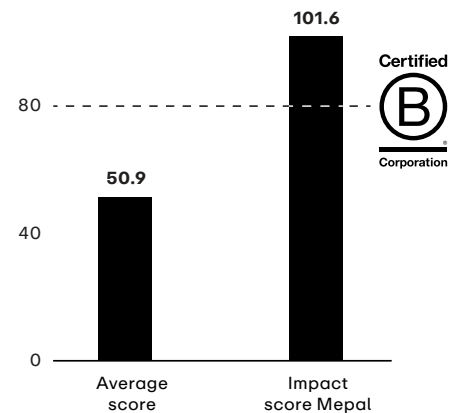

Simple to enjoy for long

The most bounced children's beaker in the Netherlands? That's ours. And all our other products are just as sturdy, they can take a beating. What's more, they are all designed to be used with ease.

Together, on the right track

Sustainability is in our DNA, and we proudly announced in September 2024 that Mepal is officially B Corp-certified. This recognition crowns our commitment to a better future, in which attention to people, the environment and society is central. The B Corp-certification is a milestone for us. With **101.6** points, we have joined the B Corp-community, where together with likeminded companies, we keep raising the bar for sustainable business. In this overview, we would like to take you through the three main pillars:

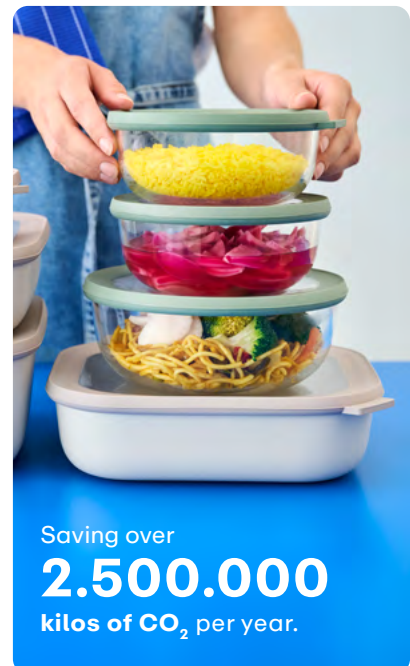

1. Impact on people & the environment

80%

of our production takes place in the Netherlands.

Made in the Netherlands

Saving over
2.500.000
kilos of CO₂ per year.

400

people in the Netherlands work in various **social places**.

Mepal's Headquarters is sustainably heated by **solar panels and heat pumps**.

amfori  BSCI
Trade with purpose

2. Impact on consumer behaviour

All our products are externally tested and meet the **strictest food safety requirements**.

100%
food grade materials.

95%
of our products is **fully recyclable**.

100%
of our production waste is **reused**.

The **alternative** for single-use products.

3. Our products

Food stays fresh longer in **air and aroma tight** storage, so **less food waste**.

100%
of our cardboard boxes for internal transport are **reused** for years.

Our products are **durable**, due to their extremely strong and impact-resistant material.

Spare parts are available to increase the lifespan.

For children 96

Meal prep hero

Preparing 38

Chef It in your kitchen

Storage

Smart storage starts with Mepal.

Whether you're meal prepping, storing leftovers, or organizing your pantry – Mepal offers stylish and practical solutions for every need.

The Circula glass is ideal for use in the oven, microwave (without lid), and fridge, and features an airtight, aroma-tight seal with a transparent lid and Nordic sage rim. The updated EasyClip makes opening and closing even more user-friendly.

For dry ingredients, Mepal's Modula containers offer instant visibility with their transparent lids, while the Omnia series adds a touch of elegance with solid lids in Nordic sage, Nordic white and black. Both lines also include fridge-friendly options, giving you a complete and coordinated range of storage solutions. Durable, functional, and beautifully designed. That's the Mepal way of storing.

Glass storage box EasyClip • 450 ml - 2250 ml

Oven-safe up to 550 °C (without lid)
Airtight and aroma-tight seal
Ideal for meal prep, storage and reheating

Suitable for:

-  Dishwasher
-  Fridge
-  Freezer
-  Microwave
-  Oven (without lid)

Storage box EasyClip • 450 ml - 2250 ml

Airtight and aroma-tight seal
Ideal for meal prep, storage and reheating
Perfect for storage, empty or filled

Suitable for:

-  Dishwasher
-  Fridge
-  Freezer
-  Microwave

Storage and serving box Lumina • 250 ml - 3000 ml

Stylish design
Stackable
Airtight and aroma-tight seal

Suitable for:

-  Dishwasher
-  Fridge
-  Freezer
-  Microwave (without lid)

Glass storage box Cirqula • 350 ml - 3000 ml

Oven-safe up to 550 °C (without lid)
Ideal for meal prep, storage and reheating
Airtight and aroma-tight seal

Suitable for:

-  Dishwasher
-  Fridge
-  Freezer
-  Microwave (without lid)
-  Oven (without lid)

Glass bento bowl 3 compartments round Cirqula • 1000 ml

Perfect for single portions
Oven-safe up to 550 °C (without lid)
Ideal for meal prep, storage and reheating

Suitable for:

-  Dishwasher
-  Fridge
-  Freezer
-  Microwave (without lid)
-  Oven (without lid)

Multi bowl round and rectangular Cirqula • 350 ml - 3000 ml

Airtight and aroma-tight seal
Ideal for meal prep, storage and reheating
Perfect for storage, empty or filled

Suitable for:

-  Dishwasher
-  Fridge
-  Freezer
-  Microwave (without lid)

Preparing

Elevate your culinary experience with the new Chef It kitchen utensils

The Chef It range keeps growing with smart kitchen tools that make cooking easier and more enjoyable. Each piece is crafted from high quality materials and designed for comfort and reliability, perfect for everyday use.

These new additions fit seamlessly alongside the existing mixing bowls and measuring jugs making the collection even more complete. From mixing jugs to handy tools for stirring, whisking, flipping, seasoning and plating, Chef It has everything to keep the kitchen running smoothly.

No matter if you are mixing, whisking, flipping or plating, these helpers are here to make every step simpler and every moment in the kitchen more enjoyable.

Mixing jug with lid Chef It • 1000 ml

Heat-resistant and durable

Active

Always on the Move

The Mepal Active range is designed for people who never stand still. Whether you're cycling to work, powering through a gym session or stretching on the mat, these bottles keep pace with your day. They're leakproof, easy to grab and built to maintain the perfect temperature, from refreshing water to energising smoothies, hot tea or protein shakes.

Every bottle in the collection has its own character: some are flexible and ready to squeeze, others tough and insulated. Shakers mix without mess, flip caps open with one hand, and all are made to perform exactly when you need them. No fuss, no pause – just go.

Strong, practical and stylish, Mepal Active bottles aren't made to sit on a shelf. They're made to move with you.

On the Go

Ready for every day: your trusted On the Go essentials.

Our On the Go collection is made to keep up with your day. Simple, practical and always ready when you are. From durable lunchboxes to versatile lunch pots and reliable drinking bottles, every piece helps you enjoy your food and drinks wherever life takes you. Easy to carry, easy to use and designed to keep everything fresh and organised, these essentials make life on the move effortless.

Now, complementing these everyday favourites, our new thermo range adds an extra layer of comfort. With thermo mugs that keep your coffee warm, tea mugs that hold the perfect temperature, and insulated lunch pots for fresh meals on the go, you can enjoy your moments even more. Whether it's your morning boost, a quick break, or lunch between meetings.

Together, the On the Go collection and the new thermo range ensure you're always well equipped: fresh meals, hot and cold drinks, and everything you need for life on the move. Stay prepared, stay fresh, and enjoy every moment on the go.

Two cups, one sustainable alternative.

The idea for this new product arose from an everyday moment: grabbing a coffee on the go at the train station. “You almost do it without thinking,” David explains. “It used to come as standard in a disposable cup. But with what we know today, the need for a sustainable alternative is growing.”

And that was exactly the challenge: how do you create something that is just as effortless as disposable? “When you’re on the move, you don’t want to have to think about it. It needs to be compact, leakproof and comfortable to use. Eventually, we arrived at a surprising solution: two cups in one. Thanks to clever screw threading and a soft sealing ring, the cups can

be twisted together in two ways: open for use, closed for travel. This keeps your bag clean and offers stylish, reusable convenience.”

What really makes the product special?

“The idea of two cups may sound strange, but it feels completely natural. You instantly recognise the gesture, and that’s exactly what makes it work so well.”

The cup is made up of three materials, each with a clear function: stainless steel to prevent discolouration, plastic for smooth twisting, and silicone for a leakproof seal. “Together, they ensure the product lasts a long time and remains pleasant to use.”

**So when is a design truly ‘finished’?
“When there’s nothing left to take away.
And when the whole feels as if it has
always been meant to be this way.”**

— David Lieshout, Product Designer

For children

Do it yourself? Absolutely.

With Mepal Mio and Campus, kids quickly learn to do things on their own, spreading sandwiches, opening bottles, drinking without spills. More independence for them means free hands for parents, teachers and childcare heroes. Perfect for school, holidays, on the go or simply at the table. Strong, easy to use and available in cheerful colours and prints that make everyone smile.

Mepal Mio helps little ones enjoy eating and drinking by themselves – one playful moment at a time. Fresh colours and sweet prints make mealtime even more fun for curious kids exploring the world bite by bite.

Campus is ready for every adventure. From sturdy bottles with straws or flip caps – also in stainless steel and insulated – to the tough bento lunchbox for a varied lunch. Everything they need, nothing that slows them down.

If a child understands it, you're on the right track.

For Marleen, every design starts with a simple question: would a child understand this without explanation? “If the product speaks for itself and fits within their world of experience, I know we’re on the right track,” she says. “For parents, it’s all about convenience: how easy is it to clean, how robust is it, and is it truly hygienic?”

But between idea and execution, challenges sometimes arise. During the development of the new straw bottle, the team ran into an unexpected obstacle. “We initially wanted to start from the existing, slim bottle diameter. But that turned out to be too limiting. Only when we let go of that requirement did space open up to create something genuinely new.”

And it shows. The bottle is more robust and stable, and full of smart details: a click that confirms the lid is properly closed, a playful moment when the straw pops up. Familiar and fun for children. It feels reassuringly familiar, yet offers that little extra in terms of ease and enjoyment of use.

Sustainability also plays a major role. “You can completely take the bottle apart, making components easy to replace and recycle. And the lid is even interchangeable with other Mepal bottles. This way, we extend the product’s lifespan.”

So when is a design finished? Marleen is very clear about that: “When no one has any questions left. Not the user, and not us as the design team. That’s when it’s right.”

— Marleen Weststrate, Product Designer

Drinking bottle with straw Campus
450 ml

Leakproof
Hygienically sealed with audible click
Practical pop-up mouthpiece
Can be used with or without straw
Carrying loop

Suitable for:
 Dishwasher

Smart choices for tomorrow.

The Campus lunchbox has been a trusted favourite for school and on the go for many years. Yet the Mepal design team saw an opportunity to introduce a new material: stainless steel. “We noticed a growing demand for stainless steel lunchboxes” Marleen explains. “A signal that aligns perfectly with Mepal’s pursuit of smart, sustainable solutions.”

Stainless steel proved to be a logical choice. “It is extremely robust, lasts a lifetime and is also highly recyclable. That makes it a perfect match for our ambition to create products that are not only practical today, but also ready for tomorrow.”

Despite the different material, the stainless steel version still feels unmistakably like a true Campus product. “The design is instantly recognisable, the box is just as easy to open as the plastic version, and of course it still features a beautiful image on the lid. That way, it remains fun and familiar for children.”

What makes the lunchbox even more appealing? “It feels solid, looks high quality and is extremely practical to use. Everything just fits.”

The choice of materials has also been carefully considered. “All components are recyclable, and the stainless steel itself is virtually indestructible - exactly what you want in a product designed to last for years.”

— Marleen Weststrate, Product Designer

Stainless steel lunchbox + bento box + fork Campus
750 ml

Includes removable bento boxes and fruit fork
Keeps food separated and fresh
