SHOKU – GOOD TASTE FOR LIFE

Shoku is a Japanese word meaning food or eating and is used in the context of meals and food culture. Eating is not only about satisfying hunger, but also about enjoyment and community around the meal.

A shared meal becomes a free space where both eating and socialising can take place, and where you can enjoy the simple pleasure of good food and good company.

The Shoku range complements both the food and the table setting with its simple aesthetics and muted, timeless colours that perfectly match the japandi style. The pieces in the range are designed with clean, organic lines that, together with the glossy and matte silky look of the glaze, lend an authentic naturalness to the table setting.

Like an artist's canvas, Shoku is the foundation that brings out the flavour and beauty of the food, combining the five basic tastes to make the meal inviting and memorable.

THE BOOK OF SHOKU

NORDIC MOODS
THE KINFOLK TABLE

SHOKU

X JAPANDI

SHOKU

The Shoku range supports the japandi style with its organic shapes and simple lines.

Combine it with elements from nature and materials such as rice paper, oak, tiles, linen and cotton and create your own balance in interior design with a warm, harmonious look.

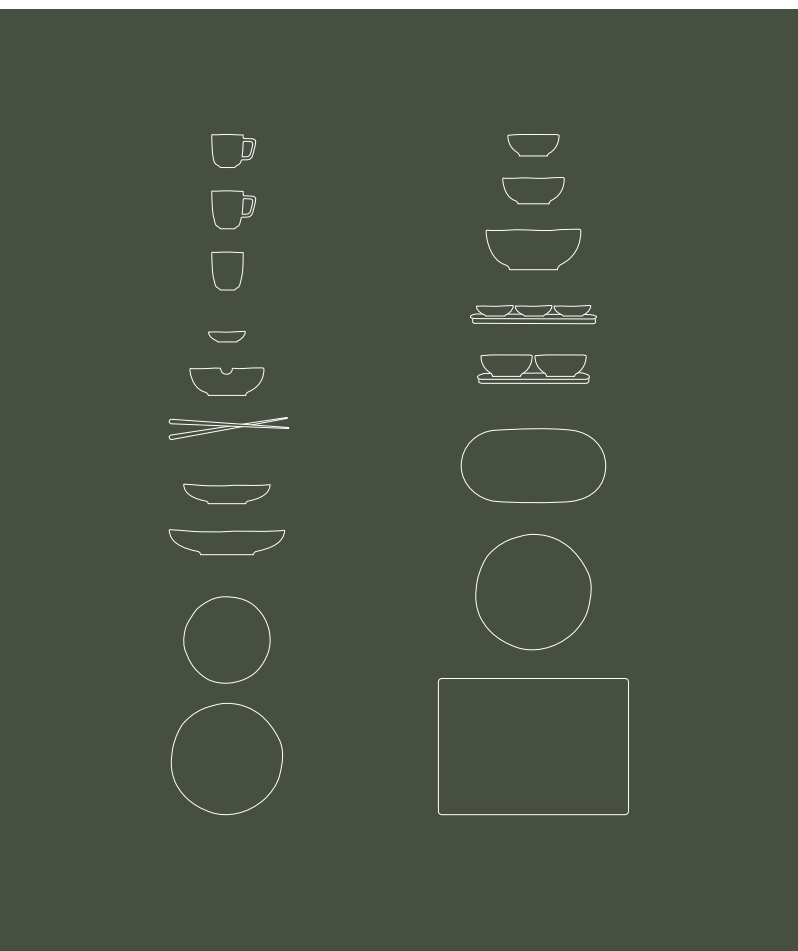

JAPANDI

Japandi is a design style that combines Japanese minimalism with Scandinavian functionality and aesthetics.

It emphasises calm, order and a sense of Zen in a functional, peaceful interior. What's also interesting about the style is its warm embrace of imperfection. The Japandi style reminds us that beauty doesn't require perfection, which is beautifully reflected in the organic and natural forms of the Shoku range.

SOFT BEIGE

Soft beige is a warm and inviting colour with a soft muted tone that exudes calm and balance. The subtle and natural expression of the colour reflects a focus on japandi minimalism and functionality, making it ideal for creating a sense of comfort and cohesion around the dining table.

PURE GREEN

Pure green is a soft and soothing colour. The soft shade of green brings renewal and naturalness to the table setting and plays beautifully with the harmonious and earthy aesthetic of Shoku design. Inspired by nature's own green pantry, the subtle beauty of Pure green enhances the overall experience of a tasty and well-prepared meal.

WARM BROWN

Warm brown is a beautiful earthy colour with warm undertones that evoke a sense of comfort and security. The soft shade of brown provides a stylish and sophisticated backdrop for all types of savoury dishes and blends perfectly with the aesthetic principles of calm and simplicity of the japandi style.

FURNITURE

They say your home reveals *who you are*

We create furniture in clean-lined,
cosy designs and each piece tells its own story.
We love wood. It's part of our Nordic DNA.
It lends warmth and glow to any home,
in the city or in the countryside,
newly built or built decades ago.

European Oak

More and more
beautiful over time

Oak is a tree species that grows in most of the world and it is commonly found throughout Denmark. There are more than 200 different species of oak. Oak is among the most durable wood species in Scandinavia.

The oak tree made its first appearance in Denmark about 10,000 years ago. Historically, oak has been used for many different purposes such as building houses, ships, floors, tools and furniture. And thanks to its high tannin content, oak is also used for tanning hides and skins and for storing and ageing wines and spirits.

Oak is extremely hard, strong and heavy. This makes oak ideal for furniture, but even the hardest woods can become scratched and scuffed because wood is a natural material. If oak furniture is well taken care of, it will last for many years. The wood will become more beautiful as it develops a patina over time. Oak furniture is elegant and exclusive, and it blends in perfectly with modern Scandinavian home décor.

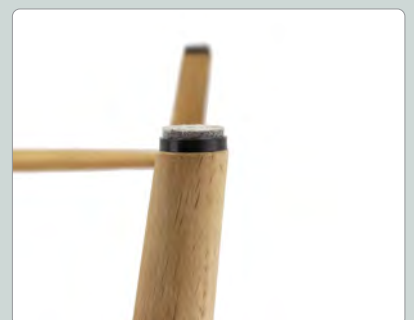

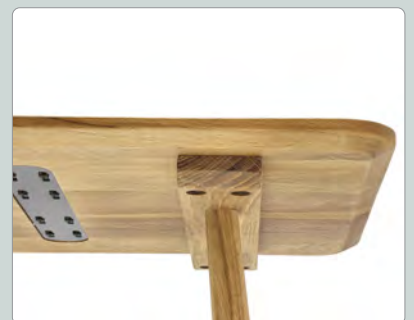

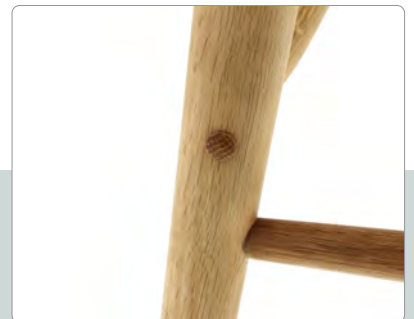

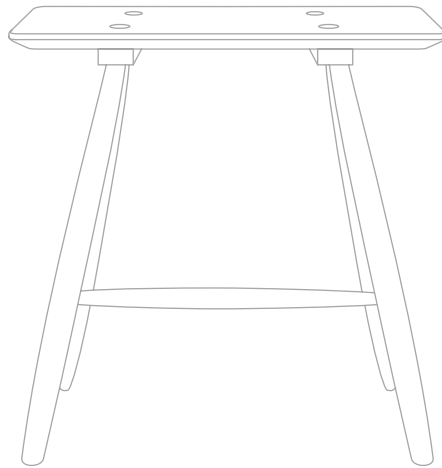

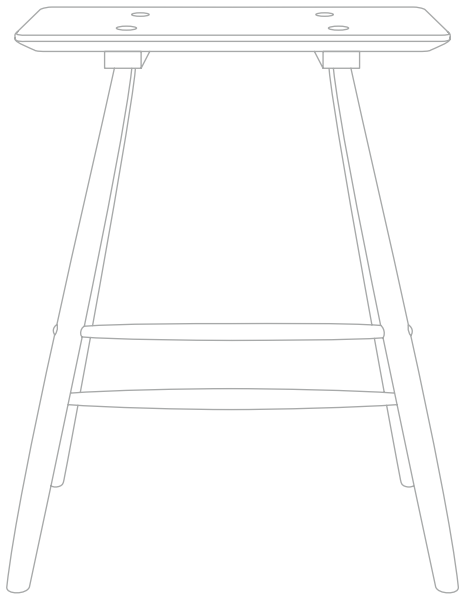

Villa Collection Denmark uses FSC™-certified oak (FSC-C166612). FSC™ is a certification system that provides accreditation for responsible forestry. It is your assurance that wood and forest-based products bearing the FSC™ label are sourced from responsibly managed forests and other controlled sources.

The oak tree made its first appearance in Denmark about 10,000 years ago.

KINFOLK TRAVEL

Bodo

Oak – naturally oiled

The BODO series includes a desk, a stool, a high stool, a coffee table, a bench, a lounge chair and a mirror crafted from oiled oak, featuring rounded contours and stylish details. Oak wood is a strong and long-lasting material that develops a patina over time. The warm glow melds beautifully with most home décors, adding cosiness and charm.

A coat of vegetable oil is applied to each BODO product that makes it more resistant to the negative effects of daily wear and tear. The oil penetrates the wood and forms a surface barrier that protects against liquid and abrasion, but do not allow water to sit on your BODO product. Wipe the surface dry with a hard-wrung cloth. The products are made from FSC™-certified oak (FSC-C166612).

- Naturally oiled oak
- Functional and strong
- Aesthetic design
- Knock down packed

Bodo

Oak – naturally oiled

This elegant oak wood series is ideal for anywhere in your home. The seven products can be styled together as a group, or used individually where needed. The well-considered details create an aesthetic whole.

BODO MIRROR
34478
L 80 W 23 H 1,8 cm

Hang it your way

Mirror with oiled oak frame that can be hung horizontally or vertically on the wall. The product's wood component is FSC™-certified oak (FSC-C166612). The design beautifully complements the rest of the Bodo series, ensuring a harmonious aesthetic in the home. Available in two sizes.

Bodo

Simple and stylish design

The elegant round coffee table stands on three legs and is crafted from the most beautiful oak. This simple and stylish design fits into any home, and the table can be styled in a multitude of ways. The product is made from FSC™-certified oak (FSC-C166612).

Bodo

A beautiful statement piece

With its laid-back look, this solid oak lounge chair is the epitome of Nordic living, with an international twist. The simple, stylish design is perfect for a Scandinavian interior with a relaxed vibe, but can also easily stand on its own as a beautiful statement piece. The seat and backrest of the chair are designed to ensure comfortable seating for many hours. The polyester cover is certified according to the OEKO-TEX® Standard 100. The wide armrests can also serve as a small table for a book or perhaps a gin and tonic on a coaster. The product is made from FSC™-certified oak (FSC-C166612).

Barv

BARV is a furniture series built around natural materials and functional design elements, resulting in a harmonious blend of strength and style. The most distinctive feature of the series is the continuous cord that is integrated into the design in a way that is both practical and aesthetic. BARV represents a modern lifestyle and invites you to immerse yourself in timeless beauty. The series is designed in collaboration with Design Studio Swift Creative, Aarhus. The product's wood component is FSC™-certified oak (FSC-C166612).

Paper cord is a strong and durable material that can be woven into all sorts of shapes.

Home décor crafted from paper

Villa Collection Denmark has a penchant for natural materials that bring nature into the home.

A selection of Villa Collection Denmark's and Villa Styles' products are made from FSC™-certified paper sourced from responsibly managed forests and other controlled material. FSC™ (Forest Stewardship Council™) helps take care of forests and the people and animals that live in them. Caring for our planet and its resources is important to Villa Collection Denmark, which is why it is a conscious choice that the paper for the products in the range is FSC™-certified.

The paper is shredded and twisted into paper cord – a strong and durable natural material that was invented during the Second World War, when it was difficult to obtain the materials normally used to make cord. Paper cord is typically used to make home accessories and furniture. The material can either be used undyed or dyed in beautiful colours that enliven the décor. It is easy to work with and can be used in a wide variety of ways, including for the design of stylish hand-woven products.

Vem

Beautiful natural materials

Paper is a key material in the VAREL series, which consists of a decorative vase and a side table. The series elements are inspired by the Scandinavian design style. The sculptural VAREL side table with a cone-shaped base makes a decorative addition anywhere in the home, and is ideal as a side table next to an armchair or as a bedside table in the bedroom. The product is made from FSC™-certified paper and other controlled material (FSC-C166612).

The VEM series features two rugs and a pouffe. The pouffe is made of 60% jute and 40% cotton, and is filled with polystyrene balls. It is handwoven, meaning that no two are exactly the same. The green, natural and pink colours create a pretty pattern. Get comfortable in your favourite chair with your feet resting on this wonderful pouffe. With OEKO-TEX® STANDARD 100 certification.

MIRRORS

Functional & decorative *element*

A mirror can be used as a functional and decorative element of the décor. It helps to open up the space and make it seem bigger and brighter.

Organic shapes

The mirrors stand out with their organic shapes that challenge traditional sharp lines and create an interesting visual expression. The VERA series brings aesthetics into the room by combining soft lines with a modern design. The mirrors in the range are not only a practical addition to the home, but also an artistic statement that catches the eye and adds depth and character to the interior.

Vasto

The VASTO mirrors have a black iron frame and are perfect for the bedroom or hallway. The back of the mirrors features hinges that allow you to hang them on the wall.

The large oval VASTO mirror is suitable for free-standing or hanging on a wall. At the back of the mirror is a stand that supports the mirror when positioned on the floor. The stand can be folded up and removed if the mirror is hung on the wall instead.

On the back of the small oval VASTO mirror you will find 4 hinges so that the mirror can hang both horizontally and vertically on the wall.

The oblong VASTO mirror with a rounded top and straight base is wider and stands stable on the floor. A removable base is included so that the mirror can stand freely on the floor.

Vasto

Mirror, mirror ...

The round VARDO mirror comes in four different sizes (100, 80, 60 and 50 cm) with a black frame to bring flair to the home décor. The 60 cm VARDO mirror also comes in off-white, and the 80 cm mirror is also available in brass.

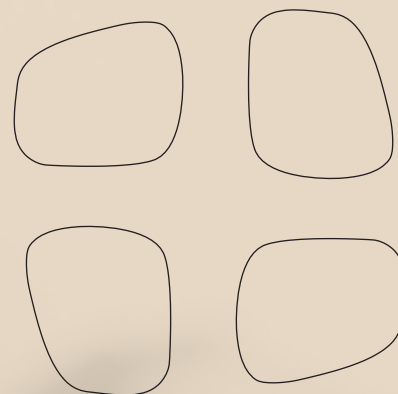

The mirror has more than a practical function in the hallway or bathroom. It is also beautiful and decorative in the living room or bedroom, for example.

Venja

- however you like it

What's your combination?

The mirror in two different sizes can hang in 4 different fantastic ways, and if you combine the two sizes, you have a wealth of possibilities for beautiful combinations.

INTERIOR

Interior

Intérieur

The word “interior” comes from the French word “intérieur”, derived from the Latin word “interior”, which means “inner”. Interior décor helps create the inner soul of the home.

Nord

Design meets nature

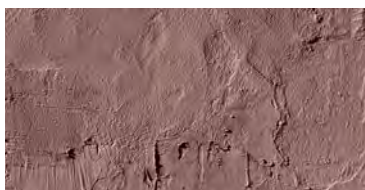

A natural focal point in your home

NORD is a charming series consisting of a wall shelf, a multi-functional holder and hurricanes in two different sizes. The pieces in the series have an organic design inspired by the soft shapes of nature, designed to bring a natural aesthetic into any space. NORD emphasises the Nordic interior design style through a harmonious combination of functionality, naturalness and minimalism.

The wall shelf offers elegant storage space, while the holder provides practical organisation for everything from mugs to keys and jewellery. The beautiful hurricanes help create a cosy atmosphere with candlelight.

Stoneware is made from clay and fired at a high temperature. Nature is the inspiration for our stoneware vases and planters, and this is made evident in decorations reminiscent of leaves, poppy seed pods, and other such motifs.

The vases are hand-crafted by skilled and experienced artisans. They are shaped on a turntable, and the decorations are made by hand and applied. A unique reactive glaze is then applied to the vases, which are fired in a kiln. The reactive glaze behaves differently from product to product, so the glaze and colour of each piece will vary.

Hand-crafted stoneware

Our vases have a unique look because they are hand-crafted by highly experienced people who are passionate about their craft.

Eik

Handmade with reactive glaze

The vases are inspired by the Nordic style that values simplicity, functionality and minimalism. The cream-coloured glaze complements the natural light and creates a sense of calm and harmony.

Klast

Two in one

Beautiful handmade piece made of stoneware with a unique reactive glazing. The design is evocative of a beach filled with stones shaped by nature over thousands of years. KLAST can be used as a vase or as a flowerpot.

Stren

A work of art

The inspiration for this vase came from the forest floor in the Nordic forests, where mushrooms are growing during the autumn. Each individual vase is hand-modelled with reactive glaze and therefore utterly unique.

Elha

Handmade and
one-of-a-kind

Gorgeous sculptural stoneware vases that look as impressive empty as they do filled with a large bouquet of flowers. The vases are covered with decorative shapes in the form of poppy seed pods, which are made and applied by hand. The new colour Honey adds a warm and pleasant glow that complements the natural beauty of the vase.

Aug

Inspired by nature

Nature is a great source of inspiration for us, and we use it in many different ways in our designs. The vase decorations and colours are inspired by tree leaves, beach stones and other impressions found in nature.

Aug

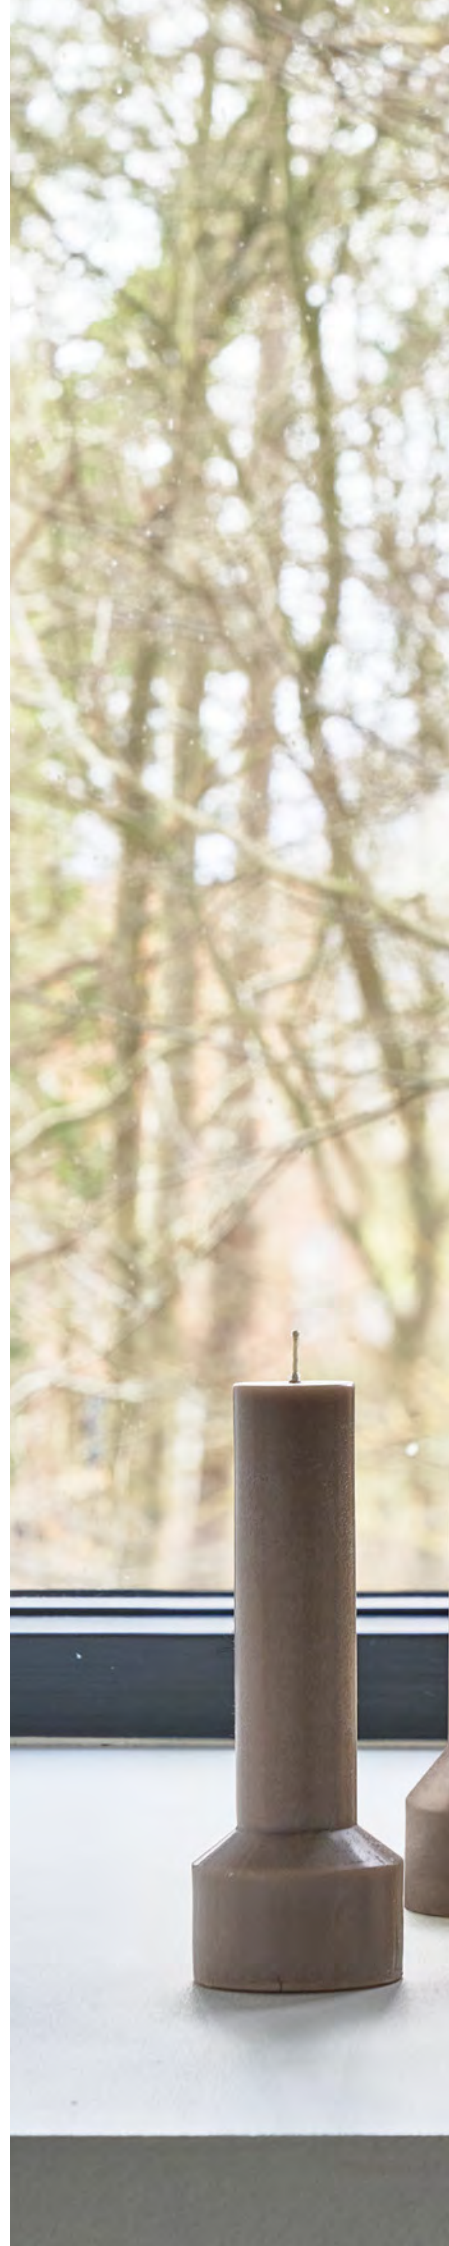

Dras

ELV

A simple design aesthetic

ELV is a series of beautiful and rugged stoneware products in off-white with small black dots. The simple design language and natural materials give the vases and candlesticks a discreet and aesthetic appearance. Combine them or mix them with vases and candlesticks in other materials, colours and sizes. The vase is glazed inside and is therefore waterproof.

Elva

Create lovely floral arrangements with just a few flowers. Simply tuck flowers into the elegant top and give them the recognition they deserve. Find small, pretty flowers in the garden and in nature and let them shine in the vases.

The BUBBLE, OTEA, HVILS and CUNEO series include vases featuring several layers of glass. They are designed by Villa Collection Denmark's design team and showcase all that is made possible when working with multiple layers of glass. The vases are handcrafted and hand-blown, so each one is unique.

Glass

Alluring like the sea

Glass is an amazing material that allows endless experimentation with shapes and colours. It is one of our favourite materials, which is why it features prominently in our range. Glass is made from melting sand into a liquid. Next, a variety of colours and other ingredients can be added to the mixture, depending on the desired result. Glass is alluring, just like the sea or a stunning blue sky.

Glassblowing is an ancient craft that is still practiced to this day. The glassblowing technique is what makes each glass product unique. A hollow iron tube is dipped into molten glass, and air is blown through the tube to create a form to be shaped.

We adore the artisanal look of the glass products made with this technique. Every glass product in our collection is made with love for this splendid material.

Trio

Together or separately

Three atmospheric vases in different heights featuring sculptural shapes that meld into your décor with ease either with or without flowers, whether you use one, two or all three vases together.

Drua

Cuneo

White mouth-blown vases

Elegant hand-crafted vases in hand-blown glass. The unique appearance is achieved using a layer of white glass on the interior and a layer of clear glass on the exterior. The vases boast a stunning shape that is ideal for both fresh and dried flowers.

Hvils

HVILS is a series of mouth-blown glass vases made in Europe by skilled glass artisans. With their wide bases and narrower, tubular tops, the vases invite the flowers to spread out, revealing them in their full glory.

The series consists of two stunning vases in triple layers of coloured glass: clear, white and honey. Three more vases in ultra-clear glass with the same decorative shape have now been added to the series: Two with a smooth surface in different sizes, and one with ridges.

In addition to the vases, the series has been enhanced with pillar candles inspired by the same design aesthetic. The vases and pillar candles complement each other beautifully. The candles are produced in Europe.

Otea

Nature-inspired glass vases

Three enchanting vases in mouth-blown glass, with stunning natural colours and soft shapes that are pleasing to the eye. Inspiration for the vases has been drawn from the Nordic nature: The beautiful brown hues of amber. The colour of sand dancing in the wind. The encounter between a heat wave and an ocean wave.

Leer

A unique character

The beautiful planter is handmade in Portugal. It is made from stoneware and fired at 1150 degrees. The reactive glaze gives each planter a unique character. Let your plants come into their own in this stunning planter, which is available in an array of sizes and colours.

Loev

Raw and decorative

The beautiful, raw pots in grey cement with rustic finish are ideal for decoration and for holding dried flowers. Please note that the pots are not waterproof. If you want to use them for live houseplants, we recommend using an insert inside the pot.

Thine

Unique storage

The THINE series consists of versatile storage jars and bowls that can be used in many places in the home, such as the office, kitchen, bathroom and children's room. Each piece is made of stoneware with a unique reactive glaze, which is central to the charm and unique aesthetic of the series.

BASKETS & LANTERNS

Natural materials *indoors & outdoors*

Rattan, water hyacinth and bamboo are quality materials that can be made into decorative planters, baskets and lanterns.

Thum

Inspired by the beach

The THUM plant pots are made of stone, sand and polyresin. The pots are reminiscent of beautiful sandy beaches, where the sun shines, the sea sprays and the breeze blows. The soft, organic shapes are inspired by pebbles, rounded by the waves of the sea.

The pots are suitable for both indoor and outdoor use. When using outdoors, a hole needs to be drilled at the bottom of the pot for draining water. The pots can withstand down to -5°C.

The plant pot provides the opportunity to create a green and vibrant environment in the home or outside on the patio or balcony.

Ylm

Rattan indoors and out

Make nature a bigger part of the décor with charming planters crafted from durable rattan. Green house-plants and colourful flowers create more cosiness and life.

The planters are lined with a plastic bag and are therefore suitable for both indoor and outdoor use. If they are placed outside, you can make water drainage holes in the bag.

There are 300 different rattan plants in many different sizes. Rattan is a natural product and as such it is not water-repellent, so if the planters are placed outdoors they will develop patina and take on a grey finish over time, depending on the weather.

Vida & Vilda

Robust and decorative planters in two sizes. They are heavy, sturdy and solid which makes them suitable for large plants. Make nature a bigger part of the décor with charming plant baskets in rattan.

Suitable for both indoor and outdoor use. The planters are lined with a plastic bag. If they are placed outside, you can make water drainage holes in the bag.

Toerv

Natural storage

The basket set in water hyacinth is a stylish and practical storage solution for towels, toilet rolls, throw blankets, knitting, toys and much more. The baskets feature woven patterns that contrast beautifully with each other.

Water hyacinth is a plant that grows in tropical waters such as ponds, lakes, and ditches. It is harvested at regular intervals to ensure that it does not take over the waterways, which require sunlight to maintain their biodiversity.

Amas & Asra

A harmonious silhouette

The lanterns feature a practical glass insert at the bottom to house a LED light or a stearin candle. The lanterns have a beautiful and harmonious silhouette, and a soft light is diffused through the fine bamboo to create a cosy, calm and warm atmosphere. The lanterns are not weatherproof and should only be used indoors, such as inside the home or in a greenhouse.

Ancona

Stylish cosiness

Make your summer evenings special with lanterns to light up your way. Available in two different sizes, the Ancona lanterns are made of galvanized steel with an elegant black coating that fits perfectly into any garden or terrace. They also have a borosilicate glass insert with a lid that protects the flame from the wind and creates a warm and welcoming atmosphere.

With their practical handles, the lanterns are easy to move around and place exactly where you want them. Design: Steffensen & Würtz.

villa collezione mark spa s.p.a. - via s. lorenzo 10 - 37060 sansepolcra (vr) - it

A photograph of a garden scene. In the foreground, a green bamboo lantern with a handle sits on a grey stone block. To the right, a dark metal fire pit is filled with logs. The background shows a wooden fence and trees. The text 'Alia' is overlaid in the center.

Alia

Natural beauty and inspiring light

A soft and inviting light emanates from our handmade bamboo lanterns that light up the garden, the terrace or the front door. The natural beauty of bamboo comes alive and brings a sense of true tranquility to your outdoor space. The lanterns are made of FSC®-certified bamboo, and each lantern has a practical handle and a strong glass insert that protects the flame and ensures that the light creates a cosy atmosphere. The green paint used on the lanterns is water-based, thereby providing good durability.

LIGHTING

Creating a special atmosphere

Lighting is a must in every room of the home, and that includes outdoor spaces. The right lighting creates a special atmosphere and gives the home character.

Vilja

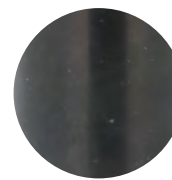

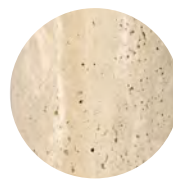

Sophisticated aesthetics

The stylish VILJA table lamps are available with either a polished brass shade and black marble base, a polished chrome shade and white marble base or a deep black metal shade and a base in natural-coloured travertine.

Choose the sleek sophistication of the marble base, with its beautiful hues and elegant veining for a smooth, contemporary look, or the warm, natural charm of the travertine base, with its earthy tones and textured finish for a softer, more

organic expression. Both materials are natural stones, created by the forces of nature over millions of years, offering a unique touch of luxury and style to your home.

The lamps have three different light settings that can be easily customised at the touch of a button. With their minimalist and clean lines, VILJA table lamps are ideal as part of the decor in the living room, on the bedside table or as an elegant touch in the home office.

Natural whitewashed solid oak

BARV is a furniture series built around natural materials and functional design elements, resulting in a harmonious blend of strength and style. The most distinctive feature of the series is the continuous cord that is integrated into the design in a way that is both practical and aesthetic. The lamps in the BARV series have shades in natural-coloured fabric that complement the natural oak wood and other features of the lamps. BARV represents a modern lifestyle and invites you to immerse yourself in timeless beauty.

The series is designed in collaboration with Design Studio Swift Creative, Aarhus. The product's wood component is FSC™-certified oak (FSC-C166612).

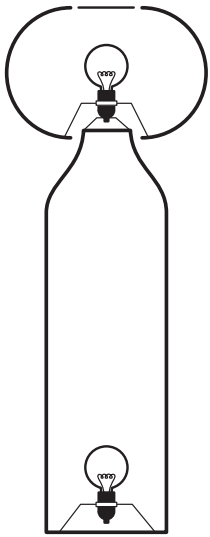

Vilma

Real craftsmanship in rattan

Create a cosy atmosphere in any room with this wireless LED lamp which features a lamp shade made of natural-coloured rattan and a base in solid oak. The design matches the Nordic décor style perfectly, known for its simplicity, functionality and natural elements. The lamp is for indoor use and offers three different brightness settings, allowing you to create just the right mood. Toggle between brightness settings with a simple press of the button. The lamp comes with a 1.2 m USB-C cable for charging. A full charge, which takes about 7 hours, provides between 8 and 16 hours of light, depending on the brightness setting selected. The lamp is easy to clean with a damp cloth.

A beautiful statement

These gorgeous rattan lamps are the perfect match for any cool, Scandinavian decor with their beautiful, soft and warm light. The large floor model even features a dual light source with light bulbs situated at both the top and bottom of the base – a beautiful, sculptural element for the Nordic home.

Vilma

Soft Light

Vinka

Rattan

Villa Collection Denmark uses only Indonesian natural rattan, which is renowned as a durable but lightweight material. Rattan is one of the world's fastest-growing natural materials for making furniture and interiors and is surpassed only by bamboo. And this makes it an ideal material. Rattan is easy to work with and can be steamed and bent in a wide variety of ways.

The age of the rattan plant is what creates the different appearances of the products. The stalks

from young trees are lighter and thinner, while the material becomes darker and thicker the older the rattan plant is.

VINKA and WERNA are sculptural table lamps and floor lamps in natural rattan. They are designed to be beautiful even without use of the light source. A perfect match for any cool, Scandinavian décor with their beautiful, soft and warm light.

LED lamps

Late summer evenings ought to be enjoyed with wonderful music or a good audiobook.

LED lamps with speakers from the HAV series are perfect for that purpose.

Hav

Perfect for parties and cosy nights

HAV is a cosy Scandinavian-designed lantern speaker for outdoor and indoor use, easy to move around and bring along. The HAV lantern speaker creates the perfect atmosphere for a garden party or a cosy BBQ evening, and contributes to a beautiful lounge atmosphere inside. Simply connect the speaker to your smartphone to start the music.

IP44 approved and suitable for outdoor use.

HAV is designed in cooperation with Design Studio Swift Creative, Aarhus.

Design: Studio Swift Creative

Villa Collection Denmark SS25 | Lighting

Recharged by the sun

The HAV lounge lamp is also available with solar. The solar cells charge the lamp during the day so it's ready to light up when darkness falls. If the sun hasn't been out, the lamp can easily be charged with the included USB-C cable.

The HAV family

The HAV family includes LED lamps with speakers and lounge lamps in a smaller size. With their practical size, the small HAV lamps can easily be taken to the beach or on a picnic.

Maane

These three lovely solar LED lamps will light up your garden or balcony on dark evenings. The lamps turn on automatically when darkness falls, providing approx. 6 hours of illumination after 8 hours of full charging in daylight.

DINING

Stylish dinnerware

*makes the dining
experience even better*

Eating is about more than just the flavour of the food. We also “eat with our eyes”, so visual presentation plays a big role in our enjoyment.

Evig

Almost the same
yet completely
different

Part of the charm of EVIG is that no two products are exactly alike. The beautiful porcelain with a reactive glaze has an amazing appearance with a completely unique finish, as each product is hand-decorated and therefore colour and surface may vary.

Design your own

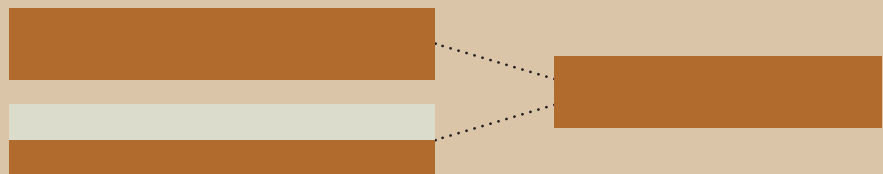

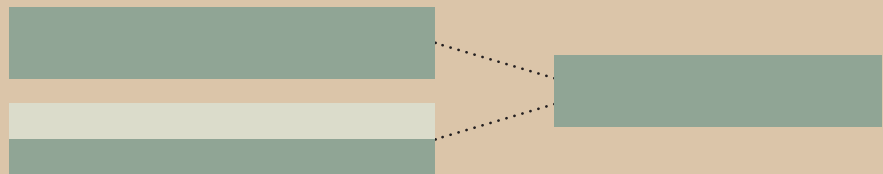

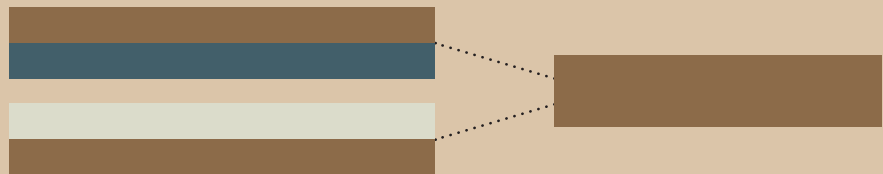

EVIG collection

Mugs and espresso cups available in
6 colours/colour combinations

Bowls and plates available in
3 colours

Mix and match items from
the EVIG series as you please.

For instance, the green bowl is a great match with both the green
mug and the green and white-coloured mug.

Serve in style

If you make a little effort when you serve your food, the food gets the attention it deserves. New additions to the Evig dinnerware series are small bowls that hold 0.18 litres and a beautiful round serving dish. The bowls are ideal for everything from crunchy snacks, nuts and olives to delicious sauces and dressings, and the serving dish will make your home-made food take centre stage on the table.

A complete dinnerware set

The EVIG dinner plates, lunch plates, espresso cups, mugs and bowls have now been joined by a serving platter, two serving bowls and a jug. Set the table with beautiful EVIG dinnerware and delight your guests with a lovely meal.

Elstra

Delicately
different

ELSTRA designs:

A table in light blue

Invite beauty and durability into your home with the Elstra stoneware dinnerware set. Now you can also enjoy Elstra in an attractive light blue colour which adds a light and airy touch to your table setting. Elstra has a lovely reactive glaze with four exquisite patterns that make each piece a work of art in itself. It is important to note that Elstra is delivered in assorted pieces and it is therefore not possible to guarantee specific patterns.

The dinnerware set includes elegant espresso cups and mugs, plates and bowls in several sizes, a serving dish and a lovely teapot with filter. In addition to its aesthetic qualities, the stoneware is designed to be dishwasher and microwave safe, making it an ideal choice for modern living.

Vaest

An exquisite
ceramic
collection

Raw nostalgia

VAEST is an exquisite ceramic collection with a beautiful and functional style that takes us back to the 1960s. The spikes and matte glaze give the series elements a raw expression – an exciting contrast to the Scandinavian style characterised by natural colours and natural materials.

The series is handmade in Portugal, where the products are cast in a mould and hand-polished by skilled artisans, after which they are dried and fired for the first time in a 1050 degree Celsius kiln. The products are then glazed and fired again at 1000 degrees Celsius.

Vita Collection Denmark 2022 Dining

Iris

Unique colour harmony

The handmade stoneware mugs are a unique addition to any ceramic collection. The IRIS mug's reactive glaze gives a unique play of colours and a distinctive look to each mug. The soft and inviting colours add a warm and cosy feeling, making the mugs ideal for everyday use. The colours complement each other and are aesthetically pleasing.

Hela

Unique wood pattern

Mugs and espresso cups with a unique wood pattern that blends beautifully into the Scandinavian design aesthetic. Sit back and enjoy a quiet moment with a good cup of coffee or tea.

WELL-BEING

Lovely spa atmosphere *at home*

Using home décor in luxurious materials
can create a lovely spa atmosphere
in the bathroom. Our products are created with
self-indulgence and everyday luxury in mind.

Live candles & wonderful scents

Villa Collection Denmark has a wide and varied range of scented candles and fragrance oils for “hygge”, atmosphere and a cosy mood in your room. There are fabulous fragrances to please everyone, and we’re constantly adding wonderful new combinations.

Our range includes gorgeous, high-quality luxury candles in both glass and ceramic jars, with and without lids.

Our scented candles made with coconut wax and rapeseed wax have become very popular over the last few years. They contain natural, biodegradable

coconut wax and rapeseed wax, and they burn for longer and are cleaner compared with the certified palm oil wax traditionally used in our scented candles. We’re working on replacing palm oil with rapeseed wax in our entire range of scented candles.

The fragrance oil is solvent-free and contains pure extracts and essential oils. All fragrance oils are supplied with eight scented sticks that will keep your home smelling beautiful for up to eight months.

Look forward to brighter times ahead!

Good advice on live candles

- Cut the wick down to 1 cm before you light the candle and keep it at a length of 1 cm while the candle is lit thereby avoiding smoke.
- Never leave a burning candle unattended or in the company of children or pets.
- Always cut off the high edges thus preventing a flickering flame that can result in soot.
- Always place groups of candles with a minimum of 10 cm between the wicks to avoid overheating which leads to melting or running candles.
- Never place your candles where they will be exposed to draught or on a radiator as this can result in soot and a running candle.
- Always place your candle on a fireproof base and away from inflammable items keep the top of the candle free from used matches, as these may act as a wick.
- Always make sure that the candle is put out before leaving it and put the candle out with an extinguisher to avoid soot.

Villa Collection Denmark relaunches its scented candle collection featuring mild and pleasant fragrances

All our candles are now made in Europe, which makes perfect sense as we use natural, biodegradable European rapeseed wax, the lovely unique ceramics with reactive glaze finish are handmade in Portugal, and the jars for the scented candles in crystallized stearin originate from Italy. We look forward to sharing all our exciting new products with you.

60–80% of the energy used in the production of the new scented candles is sourced from wind turbine and/or solar thermal energy. All wicks are made from OEKO-TEX® standard 100-certified cotton, and the new 100% stearin crown and pillar candles bear the Nordic Swan Ecolabel. The Nordic Swan Ecolabel guarantees to consumers that the product meets strict environmental requirements, that human health is safeguarded and high quality is assured.

VILLA STYLES

DENMARK

VILLA STYLES:

a wave of happy colours

Villa Styles is a concept within the Villa Collection Denmark brand. Villa Styles' interiors universe allows you to add amazing, exclusive and life-affirming colours to your existing décor – without painting an entire wall green.

Colours in the home are a trend we're seeing alongside the natural Nordic look – and the Styles products have been adapted to this particular universe. So you get the best of both worlds: life-affirming colours and warm, calm nature – a great match!

VILLA STYLES WAS CONCEIVED FROM A VISION TO CREATE A COLLECTION OF COLOURFUL INTERIOR DÉCOR THAT HAS A POSITIVE EFFECT ON YOU AND MAKES A DIFFERENCE IN YOUR HOME. VILLA STYLES IS INTENDED TO COMPLEMENT YOUR EXISTING DÉCOR. WE WANT TO MAKE IT EASY FOR YOU TO ADD FLAIR TO YOUR HOME WITH TODAY'S CHEERY, VIBRANT COLOURS.

THE COLOURS ARE CAREFULLY SELECTED TO MATCH THE COLOURS AND MATERIALS THAT CHARACTERISE THE SCANDINAVIAN STYLE: NATURAL COLOURS, WOOD, RATTAN, ETC. WHEN YOU DECORATE WITH VILLA STYLES YOU ARE CREATING A COLOUR-COORDINATED OASIS IN YOUR HOME IN WHICH ALL PRODUCTS COMPLEMENT ONE ANOTHER BEAUTIFULLY.

TREND: The colours of the rainbow

The Nordic natural colours are part of Villa Collection Denmark's DNA – but there are several Nordic colour palettes to choose from. Villa Styles' palette has its origins in the gorgeous green forests, the

deep blue sea, the blue sky, the pink sunset, the yellow rapeseed fields in spring and of course the autumn forests, where the colour amber takes centre stage.

Villa Styles

Decorate with colours

Contemporary colours

Multicoloured home decor accessories to transform your home

Even if you've chosen a Nordic look for your interior design, you can easily follow the major colour trend we'll be seeing over the next few years. Villa Styles has been developed to complement the Nordic look, and you'll of course encounter contemporary colours, which bring us all hope, smiles and joy in our everyday life.

Nordic earth tones and natural materials such as clay, sand, glass and rattan are an integral part of Villa Collection Denmark's DNA. Villa Styles' colours are also derived from the Nordic universe: the green forests,

the yellow rapeseed fields, the blue sea, the blue sky, sunsets with a stunning pink sky and finally amber, the autumnal colour of the forest.

Even when you decorate your home with multiple new and colourful Villa Styles products, you are creating harmony and cohesion across products and colours. The collection includes home decor accessories that match each other beautifully. The optimistic colours invite creativity and play and bring the home to life.

Handmade glass candlesticks

The colourful glass candlesticks from Villa Styles are crafted by hand by skilled artisans, giving each candlestick its own unique character. The candlesticks have a base, a spiral shaped stem and a holder that fits a crowntop candle with a 2.2 cm diameter. Combine several glass candlesticks from Villa Styles in various heights and colours to create a colourful centrepiece display on the dining table, sideboard or windowsill.

The candle holders can also be combined with the new handmade tealight holders in familiar Villa Styles colours ranging from a deep green to a soothing blue, warm amber and soft pink. The light plays with the reflection through the coloured glass, spreading a vibrant and dancing light in the room. By arranging the candlesticks both individually and in groups, you can create your own personalised lighting universe that invites you to cosiness and relaxation.

Alone or all together

2024
BO BEDRE

A personalised candlestick

The elegant aluminium candlestick from Villa Styles fits a crowntop candle with a 2.2 cm diameter and is available in amber, green, blue and pink. The candlestick can be used alone, or several can be put together to create a personal candlestick display. Up to four candlesticks can be stacked, making this candlestick perfect to use as an Advent candle at Christmas time.

It makes us very proud that the beautiful aluminium candlestick is among the winners of Bolig Magasinet and BO BEDRE's Design Favoritter 2024 in the Candlestick category, as it is a competition that celebrates innovative and aesthetic design in interior design.

Designed in collaboration with Design Studio Swift Creative, Aarhus.

VINDER
DESIGN
FAVORITTER
2024
BO BEDRE

Nordic calm

with cream-coloured glaze

Colourful glass art

The design is simple, yet catchy. A narrow bottom that expands upwards towards a wide and open top. The difference lies in the details with the soft, rounded edges creating an inviting look and the fine colours melting together beautifully. Both bowl and vase are in mouth-blown coloured glass, and you can feel the quality in the heaviness of the thick glass – it is solid and durable. The bowl is a decorative element in itself but can also be used as a fruit bowl or a creative flower centrepiece etc.

On the vase, flowers create an impressive effect. Villa Styles introduces artificial orchids and hydrangeas in multiple colours, which are an excellent choice for adding natural beauty and elegance – without the maintenance required by living plants.

MACHINES PLAY A ROLE IN THE PRODUCTION OF THE ARTIFICIAL FLOWERS, BUT THE DETAILS AND REALISTIC LOOK OF THE FINE FLOWERS STILL REQUIRE CONSIDERABLE HANDWORK.

Atmospheric lighting for both indoors and outdoors

This wireless LED lamp for indoor and outdoor use is easy to move around, which is ideal when light is fading on the decking, for a bedside table, or anywhere else in the home. Press and hold the button to increase or decrease the brightness to get the lighting that suits the mood. The base of the lamp is in aluminium with a silicone on/off button and dimmer, and the shade is made from PP plastic. The lamp has an IP44 rating so there's no need to worry if you forget it on the patio overnight.

The LED lamp is also available in Sand, a warm and natural hue, drawing inspiration from natural elements with soft, neutral colors. It is ideal for creating a relaxed atmosphere where the lamp is not only functional but also contributes to the overall look of the room.

THE LED LAMP IS AVAILABLE IN ROSE, GREEN, AMBER AND SAND
FITTING WITH ANY DÉCOR WITH ITS MODERN APPEARANCE.

A feast for the eyes

Stylish stoneware dinnerware from Portugal

The stoneware dinnerware set from Villa Styles is made in Portugal by ceramists with extensive know-how and experience. Each piece is shaped and polished by hand, creating beautiful and unique stoneware dinnerware with a smooth, fine finish. After this, the reactive glaze is applied and the stoneware is fired in the kiln at 1150 degrees. The reactive glaze makes each product unique. The appearance depends on the shape, kiln temperature and placement inside the kiln.

All glazes are created from scratch by our Portuguese manufacturer. The carefully-selected glazes feature life-affirming and exclusive colours that appeal to the eye. The stoneware range can be mixed and matched to create a personalised dinnerware presentation.

The wide range of colours offers something for every taste, from vivid tones to more muted shades.

The factory recycles the water used in production, and the heat generated by the ceramic kilns is fed into the rooms where the ceramics are dried, so that all gas energy is recycled. The factory makes its own clay and recycles all residues by mixing them with new clay and using the mixture for new products so that nothing is wasted.

The latest addition to the series presents an eye-catching colour combination of purple and orange, creating a dynamic and modern look.

a warm atmosphere

Candlelight creates a warm, welcoming atmosphere and cosy little oases in the home. Villa Styles' pillar candles are made from 90% paraffin and 10% stearin in Europe. Only high quality materials have been used, providing the candle with the best burning performance. Available in multiple colours and two sizes, the decorative candle makes a beautiful addition to the décor. Candles should always be placed on a surface that is not flammable.

Mix & match con cept

- Beautiful and unique products
- A colour concept where everything can be mixed and matched
- OEKO-TEX® standard 100 certified pillows and throws
- Amazing ceramic tableware from Europe
- Danish designed candleholders made in aluminium

THE VASES SPREADS CHEER
WITH ITS AMUSING LOOK AND
VIBRANT COLOURS.

Humorous vases

with beaks
and eyelashes

Stylish vase in stoneware with beak and eyelashes. The bright vase comes in two sizes and is decorated with hand-painted stripes in green, yellow, brown or blue.

Colourful days

WE REMEMBER THE COLOURFUL DAYS WHEN GLASS FRUITS WERE USED AS DECORATIONS IN THE HOME. NOW IT'S TIME TO INVITE THEM BACK IN. NATURE BECKONS IN PINK, AMBER AND GREEN.

THIS IS HOME

For chilly

TWO NEW VARIANTS OF OUR SOFT AND COSY TROWS ARE NOW AVAILABLE IN BEAUTIFUL COLOUR COMBINATIONS THAT ADD WARMTH AND GLOW TO ANY ROOM.
